

# DataSheet

The trusted go-to brand for fire extinguishers in the UK, Commander offers a comprehensive range of fire extinguishers. Now PFAS free across the entire range, time has proven the Commander range of fire extinguishers as a dependable choice for almost any situation – with reliable performance guaranteed.

## POWDER FIRE EXTINGUISHERS

Powder fire extinguishers are extremely versatile. Suitable for use on Class A (combustible materials), Class B (flammable liquids) in open spaces, and Class C (flammable gases) fires, it's for this reason they're known as 'ABC' extinguishers. Powder fire extinguishers smother fires by producing a thick barrier between the fuel and the source of oxygen.

A powder fire extinguisher shouldn't be used in confined spaces because the powder can be easily inhaled. Boasting PFAS free contents, consider this extinguisher for premises including garage forecourts, commercial boiler rooms and workspaces that feature welding.

| Technical Specification | FX-PWD-009-GCF |
|-------------------------|----------------|
| Capacity                | 9kg            |
| Fire Rating             | 55A 233B C     |
| Extinguishing Medium    | ABC Powder     |
| Working Pressure        | 14 bar @ 20°C  |
| Temperature Range       | -30°C to +60°C |
| Cylinder Material       | Steel          |
| Pressuring Gas          | Nitrogen       |
